

# This is the first post

**Date:** 2014-08-14 16:08:00

I love python because it gives me powerfull language opportunities and also there is a lot of batteries for the allmost all situations in the life :) This blog is made using GitHub pages and a new for me static site generator named Pelican. I'll do my best to support my content and give interesting information my visitors.

This blog is created via this [tutorial](#)
